Safe-Sleep Educator Training

Facilitated by Perinatal Program Director, Kathleen P. Hayden

Together, REACH CNY's Cribs for Kids program, and partner agencies, have helped hundreds of CNY families acquire and use safe sleeping spaces for their babies over the past five years. Let's keep up the good work!

Cribs for Kids program guidelines require partner agencies, and the Health and Human Services Professionals who work directly with families, to receive safe-sleep educator training through REACH CNY before they may distribute cribs and vouchers to families in need. **This training is required for continued access to Cribs for Kids Resources for agencies and new staff that have not received prior Cribs for Kids program training.**

Through this training, participants will:

- Learn current safe-sleep recommendations
- Demonstrate crib safety
- Understand Cribs for Kids program guidelines

Space is limited. Please RSVP by Jan. 30.

To register, or for more information,
please call or email:

Catherine Higgins-Kapilla, Perinatal Program Associate
